Allowance

1. Claims 11-24 are allowed.

Reason for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest, singularly or in combination at least the limitation of "depositing a second insulating material into said local interconnect; etching a third plurality of layer defining regions openings in said insulating layer for said resistive elements; sputter depositing a resistive material into said third said resistive elements; plurality of openings forming annealing said resistive elements and planarizing top surfaces of said resistive elements; forming second conductive studs contacting said first conductive studs; forming metal interconnects on top of said contact studs and said resistive elements; and forming a third metal conductor on top of said contact stud for said vertical transfer gate" for the method of forming a compact SRAM.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References A-E are cited as being related to SRAM.
